„That's been one of my mantras - focus and simplicity. Simple can be harder than complex: You have to work hard to get your thinking clean to make it simple. But it's worth it in the end because once you get there, you can move mountains.” - Steve Jobs

I have had the pleasure of working with Artur Zolkowski on Something Better to Come movie, a very successful Danish-Polish co-production. The movie received forty awards and accolades all over the world, including Producers Guild of America nomination and IDFA Special Jury Award. Artur not only contributed to the film as a talented designer; his creative vision helped greatly in freeing the imagination and pushing the boundaries in the editing of the film.
